

## **REMARKS**

### **Present Status of Application**

The Office Action mailed March 29, 2004 indicated that claims 1-11 are allowable. The Office Action objected to the drawings and claim 7 for informalities. The Office Action further indicated that this application is in condition for allowance except for the following formal matters present in the drawings and dependent claim 7.

In response thereto, Applicant has amended the drawings, the specification and dependent claim 7, as suggested by the Office Action. No new matter has been added to the application by the amendments made herein. After entry of the foregoing amendments, this application is in condition for allowance.

### **Discussion of objections**

*The drawings were objected for not showing every feature of the invention specified in claim 7.*

Applicants have added drawing figures (FIGs.) 1B' and 1B'', in order to illustrate the features recited in the claims according to the present invention. Submitted for the Examiner's approval is the proposed amendment for drawings (formal drawings of new FIGs. 1B' and 1B''). Supporting grounds of the amendments for the drawings can be found at least in paragraph [0028] of the specification. Furthermore, amendment has been made to paragraph [0028] of the specification for adding the corresponding drawing references and drawing figures.

Entry of this amendment to the drawings is respectfully requested.

*Claim 7 was objected for informalities.*

Claim 7 has been amended to correct these informalities. Reconsideration and withdrawal of this objection are respectfully requested.

### CONCLUSION

In view of the foregoing, it is believed that all pending claims are in proper condition for allowance. If the Examiner believes that a telephone conference would expedite the examination of the above-identified patent application, the Examiner is invited to call the undersigned.

Respectfully submitted,

Date :
